INTERN DELAWARE

Intern Delaware works with companies to coordinate experiences for summer interns that focus on the benefits of living and working in the First State.

FREQUENTLY ASKED QUESTIONS:

Why should I become a Corporate Partner instead of simply buying a la carte options?

- Corporate Partners have more visibility within the Intern Delaware app and on our website. There is a section dedicated to showcasing our Corporate Partners. Purchasing a la carte options means that you'll miss out on potential traffic to your organization from the interns.

What are the benefits of being a Corporate Partner?

- All Corporate Partners have featured profiles in the Intern Delaware app. Within our engagement game, we build challenges for interns to explore those profiles. More than 200 interns will be able to see your profile and learn more about your company and what you have to offer.
- You can showcase your summer Internship opportunities on our website.

What will my summer interns get out of this program?

- Intern Delaware's programming aims to educate interns on the benefits of living and working in Delaware. Through educational and networking events, they will be exposed to business and community leaders from across industries in the state. They'll also be able to establish and grow their networks within the First State by interacting with other interns at events.

What modality will this summer's programming be?

- We will be adopting a hybrid model for our programs in summer 2023. All our Signature Events will be virtual and/or hybrid using Zoom Webinars. The Coffee and Conversation sessions, Lunch and Learn sessions, and trip will all be in-person.

What do I do if I've never had an intern before?

- You've come to the right place! Consult with our [Intern Playbook](#) for suggestions on how to start and maintain an internship program at your organization. If you have any other questions, email Helana (hrodriguez@dsc.com).
